Elevate is a platform for Honeywell's partners to engage, enhance competencies, and exchange expertise through impactful conversations with industry peers, and thought leaders as they share their visions for the future.

Simon Grisdale, managing executive of Bidvest Mobility commented, "We are excited to receive this award again in recognition of the extreme hard work from our team. We have gone from strength to strength, and this was made possible by the excellent support that we received from the greater Honeywell team in South Africa and other regions."

Roman Poludnev, general manager of Honeywell Safety and Productivity Solutions Middle East, Turkey and Africa added, "The continued growth in both core verticals and further entrenchment in key accounts, enabled Bidvest Mobility to achieve double digit growth and maintain the first position as our region's largest Honeywell Service Provider and top revenue performer. Coupled with this, Bidvest Mobility continues to consistently and successfully secure strategic accounts in new verticals across Honeywell's portfolio, be it Voice directed-work or track and trace solutions in mission-critical processes."
