

Scan Display pushes creative boundaries at Markex

Issued by [Scan Display](#)

11 Jun 2007

Scan Display's stand at last week's Markex show at the Sandton Convention Centre stood out from the crowd with its sophisticated glass walls and subtle branding. A four metre high tree and a fish pond drew the attention of visitors to the show.

Scan has always pushed the boundaries at Markex to create stands with features that have not been seen in South Africa and this year's stand was no different. The stand was pitched at exhibitors who recognise the value of creativity and excellent craftsmanship and it was designed with the aim of attracting high quality leads.

Scan's MD, Justin Hawes, says: "We were really proud of our stand. It was up there with the best of the stands we see at international marketing shows like Euroshop in Düsseldorf and Exhibiting Show in London."

Scan Display will be exhibiting at Markex & World of Events KZN at ICC Durban from 14 to 16 August 2007.
