52.3% increase in intra-African trade

According to The Economic Commission for Africa (ECA), intra-African trade is expected to increase by 52.3% from 2020. With the African Continental Free Trade Agreement signing in Rwanda, March 2018, and other factors, Africa has proclaimed itself open for business - with [49 countries](#) merging into a single market of 1.2 billion people and a combined GDP of \$2.5tn, which will see Africa become the largest free trade area in the world.

With the above factors providing every reason why African business stakeholders should be talking to each other more than ever, Bizcommunity's dedicated B2B platforms are ideal to enable exactly the knowledge and resource sharing and intra-African networking required right now.
