

Thanda Safari introduces new photography game viewing vehicle to offering

The Thanda Safari private game reserve in KwaZulu-Natal and a member of The Leading Hotels of the World has announced the unveiling of its latest offering, The Green Mamba 1. The Green Mamba 1, a Land Rover Defender, has been remodelled into a luxury game-viewing vehicle to provide visitors with a photographic safari experience.

Thanda Safari visitors can request private photography game drives led by wildlife photographer and field guide Christian Sperka, who designed the vehicle himself and can enjoy vehicle features, which include bird call recordings, a 12.9 inch Apple iPad Pro with the latest nature apps including Roberts Birds of Southern Africa and three sockets for spotlights, an on-board Nespresso coffee machine, and Sperka's signature Martini bush bar for evening drinks.
