

Transporting produce in SA - yesterday, today and tomorrow

By [Gerhard Uys](#)

24 Dec 2015

The cost of transportation has become an ever-greater burden for SA farmers. There are several reasons, for this. Transport consultant Alistair Christison and Prof Jan Havenga, director of the Supply Chain Management Centre at Stellenbosch University, gave Gerhard Uys insights into the road and rail situation - and what can be done to improve matters.
