

***Spotong* event recognises women entrepreneurs operating in township market**

Township trade magazine *Spotong* is celebrating Women's Month by hosting its annual Women in Business event on 24 August in Orlando, Soweto.

Spotong Women In Business Event

The event, recognising women entrepreneurs in South Africa's township market, provides a platform to engage one-on-one with influential female township entrepreneurs - the driving force behind township economies. Walking the talk of local empowerment, every event supplier has been sourced from the local township community, ensuring that the event not only impacts the 800 invited guests, but their local communities as well.
