

New S.Pellegrino bottle dedicated to Vogue

S.Pellegrino is launching a new special limited edition bottle dedicated to Vogue Italia, to celebrate their global partnership to support the most talented young chefs and designers from around the world...

S.Pellegrino, the world-famous sparkling water, synonymous with gourmet food culture, presents the new special edition bottle dedicated to Vogue Italia, which will be served on the best tables of the world from 10 September 2015.

The bottle has been created to celebrate the extraordinary worldwide partnership of these two proud ambassadors of the Italian style and art of living. Together with the magazine, the water symbol of fine dining will give birth to a unique project, combining Italian food and style.

Unexpected challenge

Some of the world's most talented young chefs, coming from different countries, have joined a group of emerging designers and competed in an unexpected challenge mixing together taste, art and fashion. The chefs were judged by an international jury that awarded the best one as S.Pellegrino Young Chef 2015 (#SPYoungChef); while the editorial staff of Vogue Italia chose the most talented designer.

The information to participate in such unique projects is available on www.finedininglovers.com, the online magazine for food enthusiasts endorsed by S.Pellegrino and Acqua Panna, and the culminating event, the S.Pellegrino Young Chef 2015 took place a month ago in Milan.
