

## What is so special about these posts?

Are there not suitable candidates out there to fill in these positions?

Has any one noticed that these three positions are repeatedly being advertised here on this site. Are there no suitable candidates out there who can fill in these posts. If I am not mistaken, these posts have been advertised for more than 3 times already this year. Tell us, besides the job spec, whatelse are you looking for? The posts are i) Research Services Manager ii) Consumer Tracking Manager iii) Category Insights Manager.
