

***People* magazine shows off new design, features**

South African celebrity magazine *People* recently underwent a redesign. The weekly magazine has also introduced a new set of features and is set to remain on sale for longer.

People now also showcases a wide range of interesting content in sections on Lifestyle, Real Life, Spotlight, Celeb Interviews, The Catch-up section and a Puzzle section. As a bonus in the next six issues, *People* is including a Young Royals special, in which the publication celebrates the next generation of the British Monarchy.

The online version of the magazine and the website www.peoplemagazine.co.za remains unchanged.
