

See: Blue Lagoon beach clean-up

More than 80 individuals cleaned Durban's Blue Lagoon Beach on 8 September. The clean-up was organised by Restonic iDream Beds and attended by Durban's youngest environmentalist, Romario Valentine and representatives from the Wildlife and Environment Society of South Africa (Wessa) and St James Durban school with their teachers.

Restonic iDream has partnered with the Seaqual Initiative to use ocean plastic in its iDream Beds. 50 PET plastic bottles are removed from the oceans for every iDream mattress sold.
