

AAAS Kavli Science Journalism Awards now global

The AAAS Kavli Science Journalism Awards are now global. The Kavli Foundation has opened the competition for the first time to journalists from around the world in each of the eight reporting categories. Two awards in each category will be presented: a Gold award (\$5,000) and a Silver award (\$3,500).

Entries for the 2015 competition are now being accepted online. The deadline for submissions is 1 August 2015. Entries must have been published, broadcast or posted online during the contest year: 1 July 2014 to 15 July 2015.

The awards program, now in its 70th year, recognises outstanding reporting for a general audience and honours individuals for coverage of the sciences, engineering, and mathematics. Stories on the environment, energy, science policy, and health qualify if they deal in a substantive way with underlying science. Independent committees of journalists

select the winning entries.

The categories:

- Large Newspaper (circulation of 150,000 or more, daily or weekly)
 - Small Newspaper (circulation of less than 150,000, daily or weekly)
 - Magazine
 - TV - Spot News/Feature Reporting (20 minutes or less)
 - TV - In-Depth Reporting (more than 20 minutes)
 - Radio
 - Online
-
- Children's Science News (reporting on science for children, including young teens up to age 14)

The contest is administered by the American Association for the Advancement of Science (AAAS). The awards will be presented at the AAAS Annual Meeting in February 2016 in Washington, D.C. The award covers travel and lodging expenses for winners in each category.
