

Help Haiti with eBucks

eBucks members, wishing to assist those affected by the devastating catastrophe in Haiti, can make a donation through its website with eBucks or Rands to two worthy causes.

Doctors without Borders, is an international relief organisation, which provides medical support and medical personnel who specialise in disaster and famine relief, wherever they are required. Gift of the Givers Foundation supplies disaster management and medical support throughout the world and a South African team is already operational in Haiti.

Donations from eB250 or R25 will support much needed emergency relief and recovery efforts, and help the Haitian people reclaim their country and begin to rebuild their lives. To date almost eB2 million has already been donated.
