

## Princess Charlene hosts event to highlight water safety

Princess Charlene of Monaco hosted a special cocktail function in Sandton on 21 April 2017 to highlight the work her foundation does in preventing drowning. The Princess Charlene of Monaco Foundation was founded to raise public awareness about the dangers of water and teaches children preventive measures and how to swim.

Francois Pienaar, Ryk Neethling, Lizette Botha, and Dominique Donner all spoke on the work of the foundation across the country.
