

Mobile, Innovation & Impact Lions winners!

The 65th annual Cannes Lions Festival of Creativity continued on 20 June, with the 2019 Mobile, Innovation and Creative Effectiveness winners announced during the Communication, Innovation and Impact award ceremonies.

The Mobile, Innovation and Impact (Creative Effectiveness) Cannes Lions 2019 Grand Prix winners...

Magnificent Mobile

The Communication Track looks at the big creative idea, where campaigns are brought to life through brilliant partnerships, people and storytelling.

The Mobile Lions celebrate device-driven creativity, designed for portable platforms. Work where a hand-held or wearable environment is integral to the idea and enables key aspects of the execution.

Ari Weiss, chief creative officer at DDB Worldwide, North America is the 2019 Mobile Lions jury president.

Weiss has guided the creative resurgence of DDB and since joining has earned 24 Lions and been named by the 4A's as one of the 100 people who make advertising great.

“ The Mobile Grand Prix goes to [@FCBglobal](#) In New York for the brilliant and innovative Whopper Detour, a campaign for [@BurgerKing!](#) [#CannesLions](#) <https://t.co/oyIVq7ZjrP>— Cannes Lions ([@Cannes_Lions](#)) [June 20, 2019](#) ”

Mobile Lions received 866 entries and the jury awarded 42 Lions: 1 Grand Prix, 10 Gold, 11 Silver and 20 Bronze Lions.

The Cannes Lions 2019 Mobile Grand Prix was awarded to **FCB New York** for Burger King's 'The Whopper Detour'; with production by O Positive, New York; MackCut, New York; Human, New York; Chemistry Creative, New York; and Zombie Studio, São Paulo; with media by Horizon Media, New York; PR by Alison Brod Marketing + Communications, New York; and additional work by HoneyMix, New York:

The app enabled people within 600 feet of one of the 14,000 McDonald's locations in America to unlock a deal for a 1-cent Whopper.

This work was also awarded the Direct Lions Grand Prix in the Reach track earlier in the week.

The Innovation Lions shortlist comprised 25 entries from 16 countries, including: Thailand, China, Canada, Denmark, Sweden, Argentina, The Philippines, Belgium, Australia, Mexico, Russia, UK, Brazil, Israel, Germany and USA.

The Innovation Lions shortlist presentations took place on the Awards Hub Stage from Monday to Wednesday, with the winners announced onstage on Thursday, 20 June.

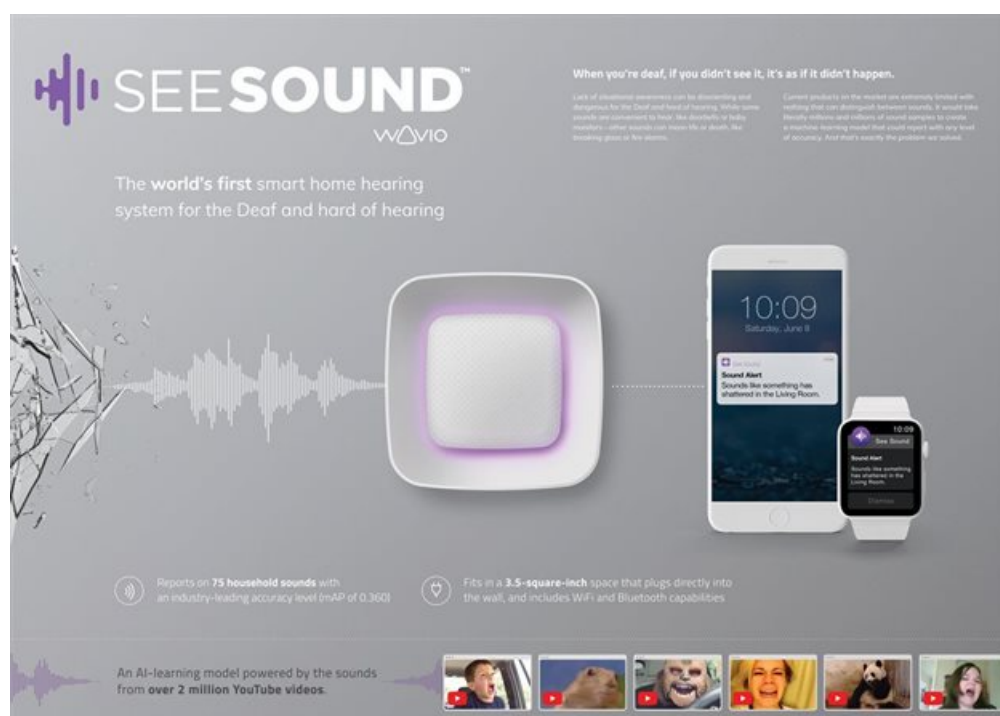

The jury eventually awarded just 7 Innovation Lions: 1 Grand Prix, 1 Gold, 2 Silver and 3 Bronze Lions.

“ An incredibly powerful and inspiring Grand Prix announcement for the Innovation Grand Prix from [@wavio_ai](#)! Congratulations to Area 23 (FCBHealth) and Wavio for winning for the [#SeeSound](#) product! [#CannesLions](#) <https://t.co/N6XnQbU2sD>— Cannes Lions (@Cannes_Lions) [June 20, 2019](#) ”

Innovation jury president and innovation track ambassador Bill Yom, global creative director of Cheil Worldwide, said:

“ This year's Innovation Lions shortlist is an exciting essence of creative excellence and I'm happy to see the work coming from countries across the world. Every shortlist candidate team should be proud to reach this stage. The Innovation Jury is looking forward to watching each presentation during live-judging on the Cannes Lions stage. The Stage is yours, not ours. ”

The Grand Prix going to **Area 23, an FCB Health Network Company**, New York for Wavio's 'SeeSound'.

This is a smart home device powered with machine learning, to identify sounds around the home and notify the user through a mobile app. Wavio's Avela Hendrix interpreted live sign language from the stage.

Commenting on the Grand Prix, Yom said:

“ This was one of the most courageous and simplest solutions we've seen which solves a problem for the deaf and hard of hearing community that has not been addressed enough before. What's also important is that it utilizes machine learning technology in a genius creative way - basically 'hacking' YouTube to train a sound database with limited resources - to essentially, save lives. ”
